President’s Message

On behalf of the Owen Sound Agricultural Society, I would like to take this opportunity to welcome you to the 162nd Owen Sound Fall Fair. Our volunteers, sponsors, and board of directors have put in countless hours to bring a little "country to the city." The hard work contributed by all is greatly appreciated and will be noticed at the fair by those in attendance. A few new events and some of the old favorites are included once again for the enjoyment of all. I look forward to seeing everyone at the fair and anticipate the looks of enjoyment on each face I see!!

1. The directors of the Owen Sound Agricultural Society wish to extend the service of the Society by asking the members to co-operate, and send in entries in advance, thereby making it possible for the Directors to prepare an Official Program and make better provision for the different classes.

2. Cows and ewes must have born young during the present year and cows must be giving milk at the time of exhibition, or in calf.

3. In the case of purebred stock, all breeds must be registered in their respective Herd Books and Certificates of Registration available to Directors. This rule will be strictly enforced.

4. Stock shown must be the Bona Fide property of the exhibitor before the show day, and every animal must be shown in the class to which it belongs, and in that one only, except as to specials.

5. Not more than one entry can be made by any one exhibitor in any one class in the Homecraft sections unless specified in the Prize List.

6. Roots, garden products and fruits must have been grown during the present year by the exhibitor. All articles entered for exhibition shall comprise neither more or less than the number, nor less than the quantities named in the Prize List as to be shown and there must be no names, letters or marks on any bag or vessel containing articles entered for exhibition by which the ownership thereof can be ascertained.

7. Culinary Arts and Homecraft Work must have been made during the present year by the exhibitor. Factory made articles will not be allowed to compete in the class of domestic manufactures.

8. Each animal brought to the show grounds must be provided with means of secure fastening and must be placed on the grounds where directed. Parties not providing proper fastening will be refused admission and animals found loose on the grounds will be impounded. All bulls - 12 months and older must be handled with a humbug or nose ring in addition to a secure rope halter. Space for crates will be available outside as NO CRATES will be allowed inside the barn.

9. No animal or article will be admitted to compete which does not have an entry tag, obtained from the Secretary to attach to it. No photocopies allowed.

10. Produce and manufactures of all kinds must be delivered to the person having charge of Coliseum and Grandstand Building or place in their respective classes under their direction.

11. Should there be only one exhibitor in any class, or section of a class, the judge, in making awards are to use their own discretion as to awarding a premium and in all cases they must refrain from making any award where they do not think the animals or articles are worthy.

12. No person will be allowed to interfere with the Judge while in discharge of their duties. Should an exhibitor interfere, he will forfeit all claim of any premium or award to which he might otherwise be entitled.

13. Should any fraud, deception or dishonest practice on the part of any exhibitor, or his agent, be discovered, the Board of Directors may withhold any prize awarded and may prohibit any exhibitor from exhibiting for such time as they determine and may publish the names of such exhibitors if they deem it proper to do so.

14. The exhibitors are particularly requested to have articles entered for competition in their classes properly marked and described, so as to correspond with the Prize List, in order that no mistake may be made in their arrangement.

15. It is absolutely necessary that no articles on exhibition be touched by visitors, as the Directors wish to deliver their specimens to their respective owners in the best possible condition.

16. While the Directors will take every precaution possible under the circumstances to insure safety of articles sent to exhibition, the owners must take upon themselves the whole risk, and should any article be injured, lost or stolen, while the Directors will give every assistance in their power for the restoration thereof, they will not make any payment for the value thereof, or for the injury or loss, and further the Society will not be responsible for any being injured in any way on the grounds.

17. Admission to the grounds as advertised.
18. Amounts and terms for the exhibit of manufactures, etc., can be obtained from the secretary.
19. Associate membership tickets are available for $10.00
20. Each exhibitor will be permitted to make up to two entries in any three classes, and in remainder of classes they will be limited to one entry in Livestock, unless otherwise stated in Prize List.
21. The Directors will pay to prize-winners of the amounts of $10.00 or over, the amount of their premium, less $10.00 retained for membership fee, if minimum of $10.00 prize money has been earned. Provided, however that should there not be sufficient funds for payment of premiums in full, the percentage will be paid which in the opinion of the Directorate, the funds will allow.
22. The Directorate, or a Committee appointed by them shall have power to examine upon oath, any member of the Society against whom a protest has been entered, and if same is found guilty of fraud in connection therewith, he shall forfeit the right of membership, as well as any prizes that may have been awarded him, and his name shall be published in the public press.
23. The Association reserves the right to amend, take from, or add to these rules as in their Judgement may be deemed best for the interest of the Society, and in case of any dispute the Directors’ ruling must be adhered to.
24. Any exhibitor who is dissatisfied with the Judge’s awards may make written protest at the secretary’s office by depositing a fee of $2.00 with each protest, and if sustained the $2.00 deposit will be returned to the Exhibitor; if the protest is not sustained, the exhibitor loses his deposit.
25. All these rules will be strictly enforced.
26. Exhibitors MUST be associate members of the Society.
27. Barn accommodation will be allotted as livestock comes in. NO RESERVED STALLS.
28. All entries in all classes must be submitted on entry forms and given to the secretary. Prizes cannot be awarded unless entry forms, fully completed are submitted.
29. In case of bad or unfavourable weather, or other reasons causing the receipts to fall short of paying the expenses, and all prizes in full, after paying the expenses, a proportionate amount, exclusive of membership will be deducted from such prizes to enable the Directors to balance the accounts without loss. The Directors feel that this course is the most equitable and fair one that can be adopted, as any deduction will fall proportionately on all those participating in the amounts collected and not leave the whole sum to be debt to bear heavily on the Society and thus impair its usefulness.
30. Each livestock exhibitor will be issued a card with exhibitor number on it. EACH EXHIBITOR MUST HAVE IT VISIBLE IN SHOW RING FOR ACCURATE RESULTS.
31. LIVESTOCK EXHIBITORS: ALL CALVES WILL BE EXHIBITED EITHER ON ITS OWN OR WITH ITS MOTHER, BUT MAY NOT BE SHOWN IN BOTH CLASSES. THIS RULE WILL BE STRICTLY ENFORCED.

**Policy for Ringworm**
Exhibitors will be required to remove any animal found to have ringworm. We strongly recommend that all animals be inspected by the exhibitor and if unsure of the animals condition, obtain veterinarian approval before transporting the animal to the fair.

COMMITTEE: Penny Fenwick 371-2070, Marg Husband 372-3452

**Glossary** from Ontario Judging and Exhibiting Standards Pub 34/03

**Collection** - a specified number of cut flowers, potted plants, branches, fruits, vegetables or nuts exhibited for cultural perfection.

**Container** – Any receptacle for plant material. In design classes it is an integral part of the design.

**Decorative Wood** – Term used to encompass all types of wood that have been waxed, varnished, painted or treated in such a way that the surface quality and/or colour has been changed. Wood whose surface has been altered by the elements in colour, form and/or texture; dried branches; sections of tree limbs or trunks; burls; cypress knees; palm spathes; roots and even some woody seed pods (usually tropical).

**Accessory** – An inorganic object(s) used in a manner to enhance the plant material. A design incorporating an accessory should appear incomplete if the accessory is removed.

**Wayside Design** (from the country side) A design composed of common and plentiful flowers, foliage, fungus and weeds of roadides and meadows, such as bulrushes, ox-eyed daisy, goldenrod etc. THE USE OF SCARCE, PROTECTED OR ENDANGERED NATIVE PLANTS SUCH AS WILD ORCHIDS, TRILLIUMS ETC. REQUIRES THAT THE EXHIBIT BE DISQUALIFIED BY THE SHOW COMMITTEE. Although gardeners may cultivate scarce, protected or endangered native plants, the use of them is forbidden in show work to discourage their picking from the wild.

**Featuring** – When a design schedule states featuring a specific thing (ie. dahlias), other things may be included to create interest but the specific thing asked for must be dominant.

**Conditioning Tips**

**Conditioning:** We condition plant material to prolong its life and to ensure that maximum uptake of water by stems, flowers and foliage is achieved.

**Cutting Flowers from the Garden:** Cut on a diagonal with clean sharp scissors or knife. Cut flowers in early morning or evening when it’s coolest. Remove foliage that would be under water because decaying leaves promotes bacterial growth. Leave flowers in a bucket of water in a cool place for several hours.

**Woody stems:** Peel an inch of bark and slit ends. Place woody stems into deep, quite warm water.

**Foliage:** Foliage can be submerged for several hours. Do not submerge Grey leaves. Young foliage will become water logged if left too long.

**Hollow stemmed flowers:** Invert and fill stem with water. Plug hole with absorbent cotton or wet floral foam. Immerse in water.

**Milky substance Flowers:** Blacken the cut stem with a flame and immerse in water.
